THE WEATHER IN RICHMOND YESTERDAY | Engineer Burgwyn Says There is Enough Water for Them to Come Up and Have a Good Berth.

> the Chamber of Commerce held Thursday evening President Ainslie called the attention of the Chamber to the desirability of getting the monitor fleet, now at City Point, located near Richmond. The subject was discussed pro and con, questions were raised as to whether James river at Richmond affords enough depth of water for the monitors, and whether there is room at or near Richmond for anchorage ground, and the whole matter was referred to the Committee on Improvement of James River to inquire whethe it is desirable to have the gunboats here, and if so to report as to how best to set about having them ordered up.

THEY CAN COME UP. A Dispatch reporter yesterday called upon Mr, C. P. E. Burgwyn, resident engineer of the James-River Improvement, at his office, and asked:

"Can these vessels pass over the bars between here and City Point?" He replied: "I understand the monitors draw fifteen feet of water. The depth of the channel of James river between City Point and Randolph flats, where it is proposed to put the gun-boats, is eighteen feet." "Is there plenty of room for the menitors to anchor in the river without obstructing navigation?" was next

"A berth could be prepared for them," replied Mr. Burgwyn, "in be-hind the jetties, where they would be much safer than they now are from ves-sels running into them. They have had accidents where they are now, but with berths properly fixed for them at Ran-dolph flats under no circumstances could vessels run into them."

ington would consent to the change "-Mr. Eurgwyn said he was unable to express any opinion. He could see no reason why the change should be oband honey," to use a scriptural expression, and he was certain to them the change would be an agreeable one Altogether, Mr. Burgwyn thought, the hange would be in all respects and to Il interested a most desirable one.

HE LIKES TO BE EXACT. Mr. Burgwyn said that the statement hat the monitors draw only fifteen fee was based upon information received from others and not upon knowledge of his own. He had no doubt, however, that this was correct. He recalled an occasion not many years ago when the

end of what is called the Bichmond Far, about two and a half miles below the eastern corporate limits, and on the Manchester (south) side of the river.

West-End Catholic Church.

says that "Bishop Keane successfully accomplished an object he has for a long time held uppermost in his mind. From information gleaned by the visitations of the clergy and from various quarters it has been demonstrated that the needs and the wants of the West End were such that the Catholics in that quarter must have not only church but also school accommodations. The Bishop has been quietly looking around for a suitable place, and on Wednesday

he purchased a quarter of a square lying on Floyd, Short, and Main streets, a short distance below the Little Sisters of the Poor, for \$10,000. is said to be the loveliest lot in that flourishing section. It is the Bishop's intention to commence with as little delay as possible to erect upon it a com-modious church structure, the basement of which will serve as a hall and school. A pastor will be placed there, and then the Catholics will be superlatively better off. This action ought to be a convincing proof that the Bishop has not determined to build a new

Cathedral in that quarter. The Bishop will visit Fort Monroe on the 24th, Keileyville immediately afterwards, then Danville, then Lynchburg, and then Roanoke on August 14th and 15th. By the by, the Catholies of the latter place are erecting a fine brick pasteral residence to cost

The crimes were committed over a year ago, when the Espoir was cruising off the coast of China. For some time past Markham, under the name of Gaylor, has been acting as agent at Kansas City for a well-known insurance company. He has been constantly shadowed night and day since June 13th until this morning, the detectives being unwilling to arrest him until the extradition papers and all other prelimina-ries had been first arranged. Though the culprit's whereabouts have been known only since June 13th the detectives have been unceasingly tracing him up step by step ever since the forgeries were discovered in the spring

The story of the long chase forms a marvellous record. Markham left his ship ostensibly for a vacation, and all clue to him had been lost before his clue to him had been lost before his misdeeds came to light, and the case was formally handed over to the Scotland Yard detectives in London. Had the San Francisco authorities been notified Markham could easily have been arrested then, as he was kept steadily in view for several

days, but no charges being known against him he was allowed to depart. [By telegraph to the Dispatch.]
New York, July 15.—Hot weather Gussie Bland returned to California on almost the next steamer after Mark-ham. She went to Los Angeles, but when the British officials had finally located her they learned that no one has sent the death rate in this city up answering Markham's description had ever been near her. Nevertheless her house was watched month after month registered. until by accident one day a detective noticed the address of a letter mailed sions down the river will be very popular to-morrow. As this question is frequently asked, we will say that she is a lady who for upwards of forty years has untiringly devoted her time and alents as a female Physician and nurse, prinpally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort and practical knowledge, obtained in a lifetime spent as a nurse and physician, she has com-pounded a Soothing Syrup for children teething. It operates like magic—giving rest and health, and is moreover sure to regulate the towels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefac-tor of her race; children certainly do RISE UP and bless her; especially is this the case in this city. Vast quantities of the Southing Syrup are Dathy sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits and unite in calling her bleesed.
